Salesforce Pardot Quick Start

Get your tailored Pardot platform up and running quickly and at a competitive price.

Which would you prefer: a tailored marketing platform, or fast implementation? The truth is, that's a false dilemma. With our Salesforce Pardot Quick Start service, you get the best of both: **a tailored Pardot platform in just eight to ten days**.

Why choose Pardot Quick Start?

- a fixed-price project with a clearly defined scope and deliverables
- a fast and definite delivery date for your new platform
- high adoption rates thanks to tailored admin and user training
- a system that's tailored to your unique business requirements

Features of Pardot Quick Start delivery

Our Pardot Quick Start package covers an engagement of eight to ten days. **The cost is £6,000 - £7,500**, based on the amount of functionality needed. You will benefit from in-depth workshops about functional and reporting requirements, project management support, and documentation for user stories and process maps. The key deliverables include:

- interviews with key stakeholders
- design and requirements documentation
- technical setup
- integration with Sales Cloud
- tracking code implementation
- email template setup

- form handler setup
- landing page setup
- grading and scoring
- engagement studio
- customer journeys
- end user and admin training
- best practice guidance
